A dependable supply and procurement partner in Pakistan

A&N Enterprises is a general order supplier and industrial equipment supplier based in Islamabad and Rawalpindi, Pakistan. We help public- and private-sector customers source products, industrial equipment and spare parts in line with their operational requirements, BOQs, RFQs and technical specifications.

Our approach combines procurement support, import and export coordination, global sourcing, maintenance service coordination and supply-chain solutions to help customers access suitable products from dependable sources. We aim to build long-term business relationships through responsive communication, transparent coordination, competitive sourcing and a practical understanding of customer specifications.

Our Vision

To become a trusted and diversified trading and supply partner in Pakistan, recognized for dependable service, responsible business practices, and the ability to support customers across a broad range of supply needs.

Our Mission

To provide quality products and responsive procurement services at competitive terms by understanding customer requirements, sourcing suitable options, coordinating orders carefully, and continually improving our service.

Our business promise

- ✓ Customer-focused service and clear communication.
- ✓ Practical sourcing based on stated specifications and intended use.
- ✓ Professional coordination from enquiry through order fulfilment.
- ✓ Commitment to integrity, reliability, and continuous improvement.

Service area

Based in Islamabad and Rawalpindi. Delivery to other cities across Pakistan is coordinated per order, subject to product, quantity and location. Quotations are issued in PKR.

From enquiry to delivery, one point of contact

Procurement Solutions

Product identification, supplier enquiries, quotation coordination and sourcing against your BOQ, RFQ or technical specification.

General Order Supply

Supply against BOQs, RFQs, purchase orders and specifications for public- and private-sector customers.

Import & Export

Coordination of international sourcing and trade requirements, subject to applicable laws, documentation and agreed commercial terms.

Global Sourcing

Supplier and product sourcing to compare availability, specifications, lead times and commercial options.

Government & Institutional Procurement

Tender-related enquiry and quotation support, supply to departments and institutions, documentation and delivery.

Maintenance & Engineering Services

Maintenance, repair and installation coordination for mechanical and electrical equipment, motors, pumps and spare parts.

How we work

1

Understand

We review your BOQ, RFQ, specification, quantity and delivery expectations.

2

Source

We identify suitable sourcing options and coordinate quotations in PKR.

3

Confirm

We confirm order details, documentation and delivery terms before proceeding.

4

Deliver

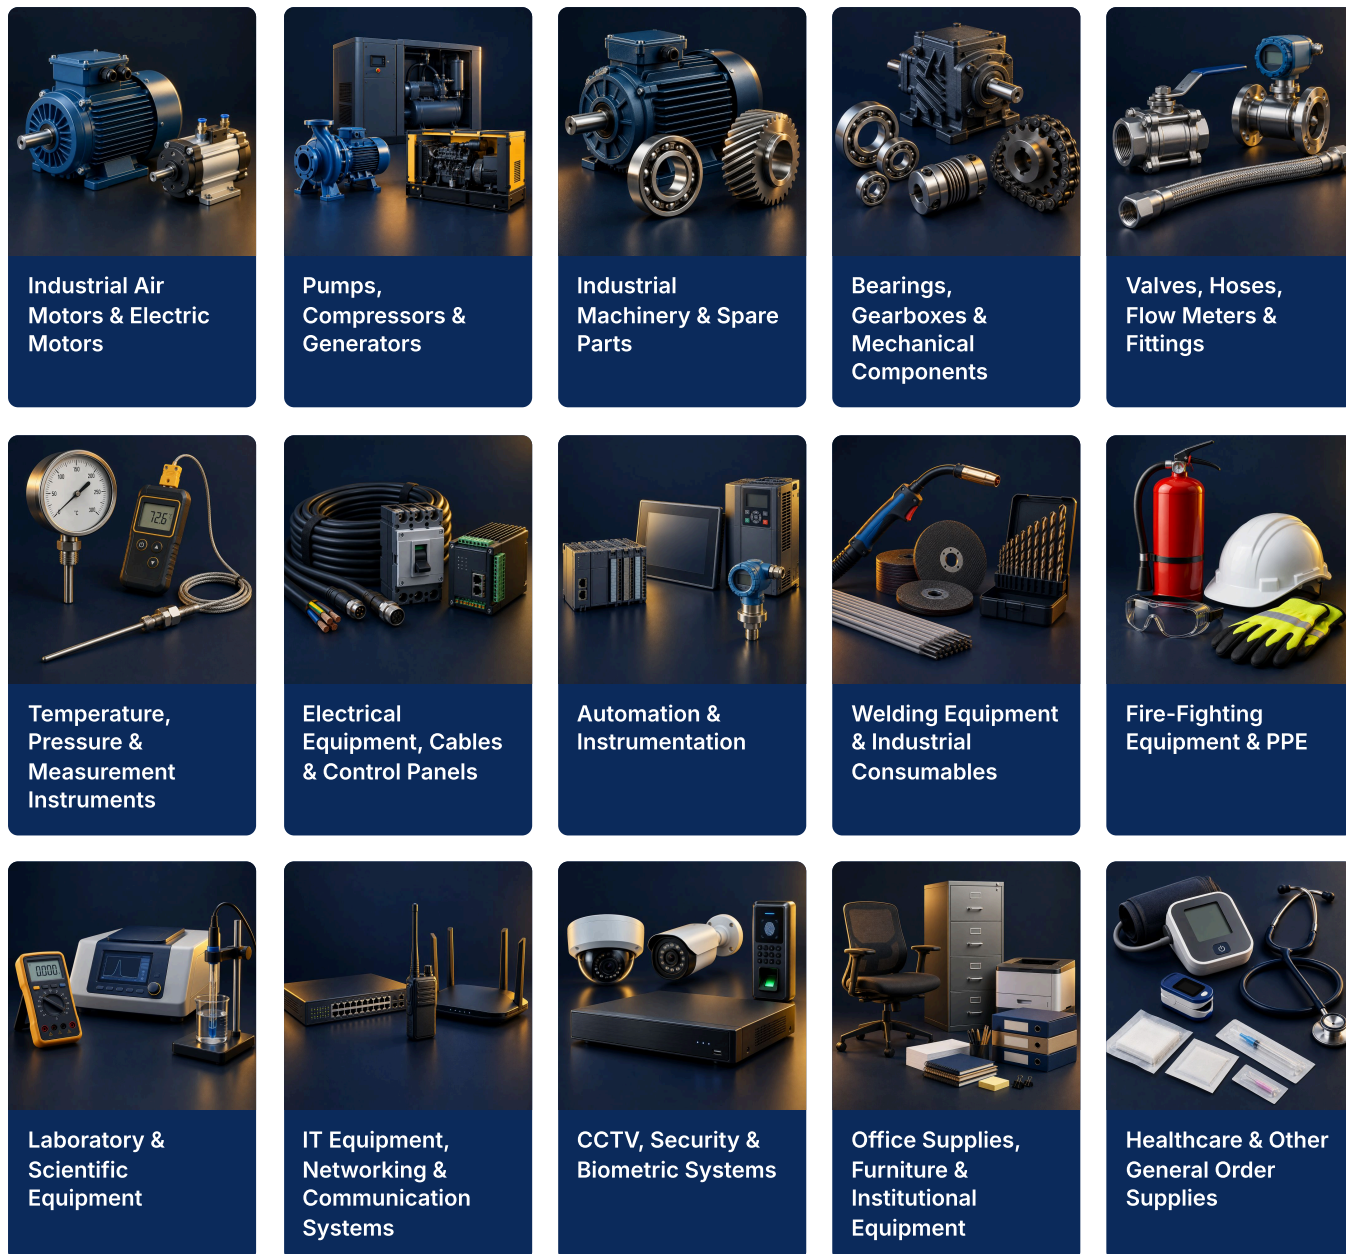

We follow up with suppliers and communicate delivery progress until handover.

Maintenance & engineering services

Mechanical equipment maintenance · Electric motor services · Pump services · Electrical equipment services · Spare parts supply & replacement · Installation & commissioning coordination. Scope, site visits, parts and commercial terms are confirmed for each job before work begins.

Product categories

Products are supplied on a quotation basis. Brands, specifications, certifications, stock availability and lead times are confirmed against each enquiry and only stated where we can verify them.

Supply approach

Supply may be arranged from available stock or through local and overseas sourcing, depending on product availability, the customer's requirements, and agreed commercial terms. Any applicable inspection, certification, warranty, shipping, and delivery conditions are agreed for the specific order.

Industries we serve

Oil, Gas & Petrochemical

Power, Energy & Utilities

Manufacturing & Process Industries

Textile & Garments

Construction & Infrastructure

Government & Public-Sector Institutions

Healthcare & Laboratories

Education & Research

Telecom & IT

Agriculture & Food Processing

Quality commitment

A&N Enterprises seeks to supply products that match the specifications and requirements agreed with the customer. We emphasize accurate enquiry handling, clear documentation, supplier coordination, and appropriate verification of product details before order confirmation. Any inspection or certification requirements are handled as specified in the relevant purchase order or contract.

Documents provided with each order

- ✓ Quotation / proforma invoice in PKR with validity, delivery terms and lead time
- ✓ Written order confirmation before the order proceeds
- ✓ Delivery challan and packing list
- ✓ Sales tax invoice in accordance with applicable rules
- ✓ Manufacturer datasheets, test certificates, warranty cards and manuals where provided and agreed
- ✓ Company registration, NTN, sales tax registration and bank details with quotations or on request
